Article 2

1. Aid measures to the fishing sector shall fall under the disciplines of Article 17 of the Agreement and its interpretation in Annex III, unless otherwise mentioned in this Article.

2. The following aid measures to the fishing sector are considered normally not to be in accordance with the Agreement:

- General aid measures concerning the sector as a whole and which are not fully directed towards structural measures in accordance with the provisions of paragraph (c)(ii) of Annex III;
- tax concessions other than those that directly offset cost disadvantages clearly linked to special conditions prevailing in the fishing sector;

¹ Import ban for whale products is applied by Liechtenstein and Switzerland on the basis of the CITES Convention

- social measures if the subsidy element of such measures exceeds what is generally applied in other sectors, taking into account the special conditions prevailing in the fishing sector.
3. The following aid measures shall normally be considered to be in accordance with the provisions of Article 17 of the Agreement:
- Aid measures in the form of lowest permitted domestic first hand sales prices for fish and the purchase of surpluses that are applied in order to offset serious market disturbances;
 - regional aid measures to the extent that they are necessary for maintaining fishing activities in regions that are to an above-average degree dependant on such activities and where income from fishing is clearly below the national average in the fishing sector. Such regional measures shall not more than offset cost disadvantages in relation to other locations for fisheries. Parties to the Agreement introducing or maintaining such measures shall, in accordance with the provisions of Annex III, provide sufficient information on the regional situation leading to the introduction or maintenance of such measures.
4. The following aid measures are considered not to be in accordance with the Agreement:
- Aid in accordance with paragraph (c)(vi) of Annex III, as concerns the fishing sector,
 - Aid in accordance with paragraph (c)(viii) of Annex III, as concerns the fishing activities.

Article 3

1. The Palestinian Authority shall abolish all customs duties and charges having equivalent effect on imports of products originating in an EFTA State, listed in Table 1, as soon as conditions permit.
2. The Palestinian Authority may maintain customs duties, applicable on the date of entry into force of the Agreement, on imports of products referred to in paragraph 1. No new customs duties shall be introduced.
3. The Palestinian Authority shall establish a duty-free import quota for the products for which customs duties are maintained, with the exceptions of the products listed in Table 2 below. Upon entry into force of the Agreement, the quota shall be 300 tons. As from 1 January 2000 the quota shall be 600 tons and be increased annually by 300 tons until it is phased out, together with the customs duties on these products, on 1 January 2004.

ANNEX III

ON THE INTERPRETATION OF ARTICLE 17

STATE AID

The EFTA States and the Palestinian Authority agree that the application of Article 17 shall be guided by the following criteria:

- (a) Only those measures can be classified as State aid which result in a net transfer of funds from State sources to the recipient through direct subsidies or which result in tax revenues foregone through tax concession; aid granted under schemes which are fully paid for by the beneficiaries are not State aid in the sense of Article 17; when assessing effects of State aid, the cumulative effects of all types of aid measures awarded to recipients are to be taken into consideration.
- (b) The following measures, in general fall outside, the scope of Article 17:
 - (i) credits and loans from State sources or agencies, if the interest and capital repayments are in accordance with current market conditions;
 - (ii) guarantees given by States or State agencies, if the premiums cover the long-term cost of the scheme;
 - (iii) equity injections by States or State agencies if the rate of return on such investments can reasonably be expected to be at least equal to the cost of State borrowing;
 - (iv) tax measures including social security charges that are part of the general national income norm for tax purposes, available to all enterprises, and uniformly applied in a country.
- (c) The following measures are examples of types of aid normally consistent with the provisions of Article 17:
 - (i) aid to research, development and innovation, provided it is clearly intended for the stimulation of such activities and that such activities are at a pre-competitive level; the pre-competitive level is understood to include applied research and development up to and including the development of a first prototype; such aid may be awarded up to a rate of 50 per cent of project costs or at differentiated tax rates of equivalent effect; basic research may be aided to a greater extent; the closer to the market place a project is, the lower the degree of subsidizations should be;

- (ii) aid given to sectors with problems of overcapacity to rationalize the structure of industry by ensuring an orderly downscaling of production and employment; such measures should strictly be limited in duration and be accompanied by an adjustment programme; when evaluating problems of overcapacity the international situation as a whole and not merely in the country in question is to be taken into account;
 - (iii) general aid to export promotion such as national weeks, store promotion, industrial fairs, provided that such aid is not company-specific;
 - (iv) regional development aid to the extent that it does not interfere with conditions of fair competition; its purpose must be to put industries in regional development areas on an equal economic footing with industries in other parts of the country and not to increase capacity in sectors already suffering from problems of overcapacity; the definition of regional development areas, including areas in industrial decline, lies within the sole competence of the State Parties to this Agreement, which may be requested to furnish statistics detailing the reasons for the designation of such areas;
 - (v) the aid in form of general public services to trade and industry on terms and conditions not favouring certain sectors and enterprises;
 - (vi) general aid for the creation of new employment opportunities provided such jobs are not in sectors already suffering from overcapacity;
 - (vii) environmental aid, under the general principle that the polluter-pays-principle is observed; investment specifically designated to reduce pollution may be aided up to a rate of 25 per cent or at differentiated tax rates of equivalent effect; recognizing the existence of different qualities of legislation or standards in other countries and their potential impact on trade and competition, the degree of subsidizations for specific industries shall be kept under constant review;
 - (viii) aid to small and medium-sized enterprises if intended to offset disadvantages directly linked to the size of the firm in question, such enterprises being understood as employing not more than 100 people and having an annual turnover of less than 10 million ECUs.
- (d) The following measures are examples of types of aid normally not consistent with Article 17:
- (i) aid to set against operating losses of enterprises, either directly or through the foregoing of payments due to public authorities;
 - (ii) the injection of equity capital in firms if it has the same effect as to set aid against operating losses;

- (iii) aid to production in problem sectors suffering from structural overcapacity or to enterprises in difficulties if not accompanied by an adjustment programme and strictly limited in duration;
 - (iv) aid given as a rescue measure to specific firms if not given merely to provide time for the development of long-term solutions and to avoid acute social problems;
 - (v) aid measures, including indirect taxes, that are applied in such a way as to discriminate in favour of domestically-produced goods and against like goods produced in another Party to this Agreement;
 - (vi) the forms of aid to exports of goods to other Parties to this Agreement as described in the Appendix.
-

APPENDIX TO ANNEX III

ILLUSTRATIVE LIST OF FORMS OF EXPORT AID REFERRED

TO IN ANNEX IV (d) (vi)

- (a) Currency retention schemes or any similar practices which involve a bonus on exports or re-exports.
 - (b) The provision by governments of direct subsidies to exporters.
 - (c) The remission, calculated in relation to exports, of direct taxes or social welfare charges on industrial or commercial enterprises.
 - (d) The exemption, in respect of exported goods, from charges or taxes, other than charges in connection with importation or indirect taxes levied at one or several stages on the same goods if sold for internal consumption, or the payment, in respect of exported goods, of amounts exceeding those effectively levied at one or several stages on these goods in the form of indirect taxes or of charges in connection with importation or in both forms.
 - (e) In respect of deliveries by governments or governmental agencies of imported raw materials for export business on different terms than for domestic business, the charging of prices below world prices.
 - (f) In respect of government export credit guarantees, the charging of premiums at rates which are manifestly inadequate to cover the long-term operating costs and losses of the credit insurance institutions.
 - (g) The grant by governments (or special institutions controlled by governments) of export credits at rates below those which they have to pay in order to obtain the funds so employed.
 - (h) The government bearing all or part of the costs incurred by exporters in obtaining credit.
-

ANNEX IV

RULES FOR THE IMPLEMENTATION OF ARTICLE 17(3)

STATE AID

I ANNUAL REPORTING

1. The EFTA States and the Palestinian Authority shall provide each other annually with complete data concerning the past State aid measures. The EFTA States may provide this information jointly.
2. The reports, covering aid by central and regional governments, shall contain information on aid by main categories, supplemented by data on main aid schemes and forms of aid used under each such category.
3. The report has to be submitted to the other party within one year following the fiscal year concerned. The first reports will cover the fiscal year 2000.
4. The calculation of the net costs of aid measures shall be made in accordance with the methodology described in Appendix 1.
5. To the extent that certain measures are the result of laws or regulations passed at an earlier stage, the date relating to the receipt of the aid is the date on which it is received by the business enterprise concerned, not the date on which it is budgeted or paid into the funds of an intermediate agency.

II PROCEDURE FOR NOTIFICATION OF NEW AID SCHEMES

6. With regard to the planned aid measures the State Parties to this Agreement shall provide data on suggested aid schemes or significant amendments of existing aid schemes as early as possible, and in any case not later than 60 days after the date of implementation of the measures in question, with the view to achieving as much transparency as possible.
7. The comprehensive notifications of new aid measures shall start as from the entry into force of this Agreement and shall be done in English by using the structure of the form reproduced at Appendix 2.
8. The notification shall be sent to the EFTA Secretariat who will forward it to the Palestinian Authority in the case of a notification made by an EFTA State and to all the EFTA States in the case of a notification made by the Palestinian Authority.

9. Each EFTA State shall have the right to request further information on a measure proposed by the Palestinian Authority as well as to comment upon it. The Palestinian Authority shall have the same right as regards a measure proposed by an EFTA State. Such requests for information and comments as well as replies to them shall be sent to the EFTA Secretariat who will forward them to the State Party concerned as well as copies of the documents to other Parties for information. A request for information or a comment made on a proposed aid scheme shall not prevent the initiation of consultations or any further steps of procedure under Article 23 of this Agreement.

III REQUESTS FOR INFORMATION

10. In addition to the right to request further information on notified aid schemes the EFTA States have an obligation to provide upon the request of the Palestinian Authority information on any other aid schemes and individual cases. The Palestinian Authority has the same obligation towards the EFTA States. The procedure provided in paragraph 9 above applies to these requests.

IV OTHER PROVISIONS

11. These procedures will be reviewed by the Joint Committee in the light of any relevant developments and experiences on the functioning of the system.

APPENDIX 1 TO ANNEX IV

CALCULATION OF NET COSTS OF AID MEASURES

The net cost of grants is the amount actually paid out in any year. If some previously extended grants are reconverted and partially or fully paid back, the amount is deducted.

The net cost of loans is calculated by computing the (imputed) interest on loans outstanding during the year. The rate of interest used is the average cost of government borrowing for new loans in the year concerned, not the rate over the years over which the loans have already run. The amount of interest received by the public authorities is subtracted. Possible depreciations in the value of loans (write-offs) are added to the net costs.

The net cost of guarantees is equal to the cost of guarantees met in any one year, minus the fees received in that year and minus recoveries.

The net cost of equity is the difference between the cost of government borrowing and any dividends and/or repayments received. Reductions in the value of equity capital (e.g. write-offs) are added as a cost.

APPENDIX 2 TO ANNEX IV

STATE AID - NOTIFICATION FORM FOR PLANNED AID MEASURES

1. Country.
2. Title of aid scheme/aid measure.
3. Level of government responsible for scheme/aid measure:
 - central government,

- other (specify).

Please state the following for each form of aid:

- a precise description of its rules and conditions of application (in particular its intensity) and
- its tax treatment.

10. State the eligible costs on which the aid is calculated for each form of aid (e.g. land, buildings, equipment, personnel, training, consultants' fees, etc.).

11. State other aid limitations or criteria for each form of aid:

- specify any limits (no. of employees, turnover, balance sheet totals, other) on recipients of aid or any other positive conditions used to determine recipients;
- state whether the aid is accorded automatically once certain objective criteria are fulfilled or whether there is an element of discretion by the awarding authorities.

¹ NACE is the Central Industrial Classification of Economic Activities within the European Communities; see Council Regulation (EEC) No 3037/90 of 9 October 1990 on the statistical classification of economic activities in the European Community, OJ No L 293/1, as amended by Commission Regulation (EEC) No 761/93 of 24 March 1993, OJ No L 83/1.

12. Repayment and penalty arrangements:
 - repayment arrangements, if any, where projects are successful;
 - penalty arrangements, if any, where projects fail to comply with the conditions on which aid was granted.
 13. Cumulation of aid:
 - where there is more than one form of aid, state to what extent a recipient may combine several forms of aid;
 - state to what extent the aid in question may be combined with other aid schemes in operation.
 14. Duration of aid scheme/aid measure:
 - date of aid measure/scheme coming into force and date until which it will remain in force;
 - if an existing scheme for what period of time being extended.
 15. Budget/expenditure:
Give budget/expenditure figures in national currency:
 - total budget for the duration of the scheme/aid measure
 - if an existing aid scheme is to be altered, give for the last three years expenditure in the form of commitments made (including estimated revenue losses in the case of tax expenditure),
 - annual breakdown of the budget.
 16. For schemes which do not have a specific sectoral or regional aim, specify any resulting sectoral or regional concentration of aid.
 17. Estimated number of recipients.
 18. Information/control measures envisaged to ensure that assisted projects comply with statutory objectives.
 19. Fully reasoned justification of the compatibility of the aid scheme/aid measure backed by necessary statistical information.
 20. Other relevant data (e.g. estimated number of jobs created and maintained).

REFERRED TO IN PARAGRAPH 2 OF ARTICLE 29

CONSTITUTION AND FUNCTIONING OF THE ARBITRAL TRIBUNAL

1. In its written notification made pursuant to Article 29 of the Agreement, the Party referring the dispute to arbitration shall designate one member, who may be its national.
2. Within thirty days from the receipt of the notification referred to in paragraph 1, the Party to which it was addressed shall, in turn, designate one member, who may be its national.
3. Within sixty days from the receipt of the notification referred to in paragraph 1, the two members already designated shall agree on the designation of a third member who shall be confirmed by the parties to the dispute within 15 days. The third member shall not be a national of either party to the dispute, nor permanently reside on the territory of either Party. The member thus appointed shall be the President of the arbitral tribunal.
4. If all three members have not been designated or appointed within sixty days from the receipt of the notification referred to in paragraph 1, the necessary designations shall be made, at request of either party to the dispute, by the President of the International Court of Justice. If the President is unable to act under this paragraph or is a national of a party to the dispute, the designations shall devolve on the Vice-President of the Court. If the latter, in turn, is unable to act or is a national of a party to the dispute, the designations shall be effected by the next senior member of the Court who is neither unable to act nor a national of a Party.
5. The tribunal shall lay down its own rules of procedure and take its decisions by majority vote.
6. The arbitral award shall be rendered within six months of the date at which the President of the Tribunal was appointed. At the request of the tribunal the Joint Committee may grant an extension of this time period. up to six additional months. In the event of a dispute over the meaning and scope of the award, any party to the dispute can, within 60 days from the communication of the

arbitral award, ask for clarification by the tribunal. The tribunal shall deliver its clarification within 60 days from the day the issue was brought before it.

7. The expenses of the Tribunal, including the remuneration of its members, shall be borne by the parties to the dispute in equal shares.

PROTOCOL A

REFERRED TO IN SUB-PARAGRAPH (b) OF ARTICLE 2

PROCESSED AGRICULTURAL PRODUCTS

Article 1

The provisions of the Agreement shall apply to the products listed in Table I.

Article 2

1. In order to take account of differences in the cost of the agricultural raw materials incorporated in the products referred to in Articles 3 and 4 of this Protocol, the Agreement does not preclude:

- (a) the levying, upon import, of a fixed duty;
- (b) the application of measures adopted upon export.

2. The fixed duties, levied upon import, shall be based on, but not exceed, the differences between the domestic price and the world market price of the agricultural raw materials incorporated into the products concerned.

Article 3

1. For products listed in Tables II, III and IV, originating in the West Bank and the Gaza Strip, Iceland, Liechtenstein/Switzerland and Norway respectively shall accord the concessions indicated in those Tables.

2. Taking into account the provisions laid down in Article 2 of this Protocol, Iceland, Liechtenstein/Switzerland and Norway shall, based on reviews that can be requested by either side, accord for products listed respectively in Tables II, III and IV, originating in the West Bank and the Gaza Strip, treatment not less favourable than that accorded to the European Community.

Article 4

For products listed in Table V, originating in an EFTA State, the Palestinian Authority shall not apply fixed duties higher than those applicable at the entry into force of the Agreement. No new fixed duties shall be introduced on imports of these products.

Article 5

1. The EFTA States shall notify the Palestinian Authority and the Palestinian Authority shall notify the EFTA States at an early stage, at least before the entering into force, of all measures applied under Article 2 of this Protocol.
2. The Palestinian Authority and the EFTA States shall inform each other of all changes in the treatment accorded to the European Community.

Article 6

The EFTA States and the Palestinian Authority shall review periodically the development of their trade in products covered by this Protocol. A first review shall take place at the latest after the introduction of any changes in the relations with the European Community. In the light of these reviews and taking into account the arrangements between the Parties and the European Community or in WTO, the EFTA States and the Palestinian Authority shall decide on possible changes to the product coverage of this Protocol, as well as on a possible development of the measures applied under Article 2 of this Protocol.

TITLE I
GENERAL PROVISIONS

Article 1

Definitions

For the purposes of this Protocol:

- (a) "manufacture" means any kind of working or processing including assembly or specific operations;
- (b) "material" means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (c) "product" means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (d) "goods" means both materials and products;
- (e) "customs value" means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
- (f) "ex-works price" means the price paid for the product ex works to the manufacturer in an EFTA State or in the West Bank and Gaza Strip in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
- (g) "value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in an EFTA State or the West Bank and Gaza Strip;
- (h) "value of originating materials" means the value of such materials as defined in sub-paragraph (g) applied mutatis mutandis;
- (i) "added value" shall be taken to be the ex works price minus the customs value of each of the materials incorporated which originated in another Contracting Party as referred to in Article 3 or, where the customs value is not known or cannot be ascertained, the first price verifiably paid for such materials in the EFTA State concerned or in the West Bank and Gaza Strip;
- (j) "chapters" and "headings" mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Harmonized Commodity Description and Coding System, referred to in this Protocol as "the Harmonized System" or "HS";
- (k) "classified" refers to the classification of a product or material under a particular heading;

- (l) "consignment" means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (m) "territories" includes territorial waters;
- (n) "units of account" shall be the equivalent to the European Currency Units (ECU) or to the EURO as from the date on which the latter replaces the ECU on a one-to-one basis.

TITLE II

DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

Article 2

Origin criteria

For the purpose of implementing this Agreement and without prejudice to the provisions of Article 3 of this Protocol, the following products shall be considered as:

- 1) products originating in an EFTA State:
 - a) products wholly obtained in an EFTA State, within the meaning of Article 5 of this Protocol;
 - b) products obtained in an EFTA State which contain materials not wholly obtained there, provided that the said materials have undergone sufficient working or processing in this EFTA State within the meaning of Article 6 of this Protocol;
- 2) products originating in the West Bank and Gaza Strip:
 - a) products wholly obtained in the West Bank and Gaza Strip within the meaning of Article 5 of this Protocol;
 - b) products obtained in the West Bank and Gaza Strip which contain materials not wholly obtained there, provided that the said materials have undergone sufficient working or processing in the West Bank and Gaza Strip within the meaning of Article 6 of this Protocol.

Article 3

Bilateral cumulation of origin

1. Without prejudice to Article 2 (1) (b), materials originating in the West Bank and Gaza Strip within the meaning of this Protocol shall be considered as products originating in an EFTA State when incorporated into a product obtained there, provided these materials have undergone working or processing in this EFTA State going beyond that referred to in Article 7 of this Protocol. The materials need not to have undergone sufficient working or processing.
2. Without prejudice to Article 2 (2) (b), materials originating in an EFTA State within the meaning of this Protocol shall be considered as products as products originating in the West Bank and Gaza Strip when incorporated into a product obtained there, provided these materials have undergone working or processing there going beyond that referred to in Article 7 of this Protocol. The materials need not to have undergone sufficient working or processing.
3. For the purpose of paragraphs 1 and 2, where the working or processing carried out in an EFTA State or in the West Bank and Gaza Strip is not going beyond that referred to in Article 7, the product obtained there shall be considered as originating in the Contracting Party concerned only if the value added there exceeds that of any incorporated materials originating in another Contracting Party. If this is not so, the product obtained shall be considered as originating in the Contracting Party which accounts for the highest value of originating materials used in the manufacture in the Contracting Party concerned.
4. Products originating in another Contracting Party within the meaning of this Protocol, not having undergone any working or processing in the Contracting Party concerned, retain their origin when exported to another Contracting Party.

Article 4

[This Protocol does not contain an Article 4]

Article 5

Wholly obtained products

1. The following shall be considered as wholly obtained in an EFTA State or the West Bank and Gaza Strip:
 - (a) mineral products extracted from their soil or from their seabed;
 - (b) vegetable products harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;

- (e) products obtained by hunting or fishing conducted there;
 - (f) products of sea fishing and other products taken from the sea outside the territorial waters of the respective Contracting Party by their vessels;
 - (g) products made aboard their factory ships exclusively from products referred to in sub-paragraph (f);
 - (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreating or for use as waste;
 - (i) waste and scrap resulting from manufacturing operations conducted there;
 - (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
 - (k) goods produced there exclusively from the products specified in sub-paragraphs (a) to (j).
2. The terms "their vessels" and "their factory ships" in sub-paragraphs 1(f) and (g) shall apply only to vessels and factory ships:
- (a) which are registered or recorded in an EFTA State or in the West Bank and Gaza Strip;
 - (b) which sail under the flag of an EFTA State or of the West Bank and Gaza Strip;
 - (c) which are owned to an extent of at least 50 per cent by either nationals of EFTA States or Palestinian people of the West Bank and Gaza Strip, or by a company with its head office in one of the Contracting Parties, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are either nationals of EFTA States or Palestinian people of the West Bank and Gaza Strip and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those Contracting Parties or to public bodies or either nationals of the EFTA States or Palestinian people of the West Bank and Gaza Strip;
 - (d) of which the master and officers are either nationals of EFTA States or Palestinian people of the West Bank and Gaza Strip; and
 - (e) of which at least 75 per cent of the crew are either nationals of EFTA States or Palestinian people of the West Bank and Gaza Strip.

Article 6

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:
 - (a) their total value does not exceed 10 per cent of the ex-works price of the product;
 - (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall apply except as provided in Article 7.

Article 7

Insufficient working or processing operations

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:
 - (a) operations to ensure the preservation of products in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);
 - (b) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making-up of sets of articles), washing, painting, cutting up;
 - (c) (i) changes of packaging and breaking up and assembly of packages;

- (ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards etc., and all other simple packaging operations;
 - (d) affixing marks, labels and other like distinguishing signs on products or their packaging;
 - (e) simple mixing of products, whether or not of different kinds, where one or more components of the mixtures do not meet the conditions laid down in this Protocol to enable them to be considered as originating in an EFTA State or the West Bank and Gaza Strip;
 - (f) simple assembly of parts to constitute a complete product;
 - (g) a combination of two or more operations specified in sub-paragraphs (a) to(f);
 - (h) slaughter of animals.
2. All the operations carried out in either an EFTA State or the West Bank and Gaza Strip on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 8

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.
- Accordingly, it follows that:
- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under general rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in general rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 11

Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture :

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 12

Principle of territoriality

1. Except as provided for in Article 3 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in an EFTA State or the West Bank and Gaza Strip.
2. Except as provided for in Article 3, where originating goods exported from an EFTA State or the West Bank and Gaza Strip to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same as those that were exported; and

- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
- 3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside a Contracting Party on materials exported from an EFTA State or the West Bank and Gaza Strip and subsequently reimported there, provided:
 - (a) the said materials are wholly obtained in an EFTA State or the West Bank and Gaza Strip or have undergone working or processing beyond the insufficient operations listed in Article 7 prior to being exported; and
 - (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the reimported goods have been obtained by working or processing the exported materials; and
 - (ii) the total added value acquired outside the EFTA State concerned or the West Bank and Gaza Strip by applying the provisions of this Article does not exceed 10 per cent of the ex-works price of the final product for which originating status is claimed.
- 4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside an EFTA State or the West Bank and Gaza Strip. However, where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the final product, the total value of the non-originating materials incorporated in the territory of the Contracting Party concerned, taken together with the total added value acquired outside the EFTA State concerned or the West Bank and Gaza Strip by applying the provisions of this Article, shall not exceed the stated percentage.
- 5. For the purposes of applying the provisions of paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside the EFTA State concerned or the West Bank and Gaza Strip, including the value of the materials incorporated there.
- 6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II and which can be considered sufficiently worked or processed only if the general tolerance in Article 6 (2) is applied.
- 7. The provisions of paragraphs 3 and 4 shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

8. Any working or processing of the kind covered by the provisions of this Article carried out outside an EFTA State or the West Bank and Gaza Strip shall be effected by means of an outward processing arrangement, or a similar arrangement.

Article 13

Direct transport

1. The preferential treatment provided for under this Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between the Contracting Parties. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the Contracting Parties.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing Contracting Party by the production of:
 - (a) a single transport document covering the passage from the exporting Contracting Party through the country of transit; or
 - (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
 - (iii) certifying the conditions under which the products remained in the transit country; or
 - (c) failing these, any substantiating documents.

Article 14

Exhibitions

1. Originating products, sent for exhibition outside the Contracting Parties and sold after the exhibition for importation into an EFTA State or the West Bank and Gaza Strip shall benefit on importation from the provisions of this Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from an EFTA State or the West Bank and Gaza Strip to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in an EFTA State or the West Bank and Gaza Strip;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing Contracting Party in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

DRAWBACK OR EXEMPTION

Article 15

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in an EFTA State or in the West Bank and Gaza Strip for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in an EFTA State or the West Bank and Gaza Strip to drawback of, or exemption from, customs duties of whatever kind.
2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in an EFTA State or the West Bank and Gaza Strip, to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 8 (2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.
5. The provisions of paragraphs 1 to 4 shall apply only in respect of materials which are of the kind to which the Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of this Agreement.
6. The provisions of this Article shall apply as from 1 January 2002 and may be reviewed by common accord.

TITLE V

PROOF OF ORIGIN

Article 16

General requirements

1. Products originating in an EFTA State or the West Bank and Gaza Strip shall, on importation into an EFTA State or the West Bank and Gaza Strip, benefit from this Agreement upon submission of either :
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex III; or
 - (b) in the cases specified in Article 21 (1), a declaration, the text of which appears in Annex IV, given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified (hereinafter referred to as the "invoice declaration").
2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 26, benefit from this Agreement without it being necessary to submit any of the documents referred to above.

Article 17

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Contracting Party on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative.
2. For this purpose, the exporter or his authorized representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in one of the official languages of a Contracting Party, or in English, in accordance with the provisions of the domestic law of the exporting Contracting Party. If they are handwritten, they shall be completed in ink in printed characters. The description

of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting Contracting Party where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. A movement certificate EUR.1 shall be issued by the customs authorities of an EFTA State or the West Bank and Gaza Strip if the products concerned can be considered as products originating in an EFTA State or the West Bank and Gaza Strip, and fulfil the other requirements of this Protocol.
5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.
7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17 (7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
 - (b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.
2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.
3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with one of the following phrases:

"NACHTRÄGLICH AUSGESTELLT", "DÉLIVRÉ Á POSTERIORI",
"RILASCIATO A POSTERIORI", "ISSUED RETROSPECTIVELY",
"ÚTGEFIÐ EFTIR Á", "UTSTEDT SENERE", [*Arab version*]

5. The endorsement referred to in paragraph 4 shall be inserted in the "Remarks" box of the movement certificate EUR.1.

Article 19

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.
2. The duplicate issued in this way must be endorsed with one of the following words:

"DUPLIKAT", "DUPLICATA", "DUPLICATO", "DUPLICATE",
"EFTIRRIT", [*Arab version*]
3. The endorsement referred to in paragraph 2 shall be inserted in the "Remarks" box of the duplicate movement certificate EUR.1.
4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in an EFTA State or the West Bank and Gaza Strip, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within an EFTA State or the West Bank and Gaza Strip. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

Article 21

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16 (1) (b) may be made out:
 - (a) by an approved exporter within the meaning of Article 22, or

- (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed 6 000 units of account.
2. An invoice declaration may be made out if the products concerned can be considered as products originating in an EFTA State or in the West Bank and Gaza Strip and fulfil the other requirements of this Protocol.
 3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting Contracting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
 4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting Contracting Party. If the declaration is handwritten, it shall be written in ink in printed characters.
 5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting Contracting Party a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
 6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing Contracting Party no longer than two years after the importation of the products to which it relates.

Article 22

Approved exporter

1. The customs authorities of the exporting Contracting Party may authorize any exporter who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorization number which shall appear on the invoice declaration.
4. The customs authorities shall monitor the use of the authorization by the approved exporter.

5. The customs authorities may withdraw the authorization at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorization.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting Contracting Party, and must be submitted within the said period to the customs authorities of the importing Contracting Party.
2. Proofs of origin which are submitted to the customs authorities of the importing Contracting Party after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing Contracting Party may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing Contracting Party in accordance with the procedures applicable in that Contracting Party. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing Contracting Party, dismantled or non-assembled products within the meaning of general rule 2 (a) of the Harmonized System falling within Sections XVI and XVII or heading Nos. 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that

such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN 22/CN 23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed 500 units of account in the case of small packages or 1 200 units of account in the case of products forming part of travellers' personal luggage.

Article 27

Supporting documents

The documents referred to in Articles 17 (3) and 21 (3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in an EFTA State or the West Bank and Gaza Strip and fulfil the other requirements of this Protocol may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in an EFTA State or the West Bank and Gaza Strip where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in an EFTA State or the West Bank and Gaza Strip, issued or made out in an EFTA State or the West Bank and Gaza Strip where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in an EFTA State or the West Bank and Gaza Strip, in accordance with this Protocol.

Article 28

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17 (3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21 (3).

3. The customs authorities of the exporting Contracting Party issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17 (2).
4. The customs authorities of the importing Contracting Party shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 29

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 30

Amounts expressed in Units of Account

1. Amounts in the national currency of the exporting Contracting Party equivalent to the amounts expressed in units of account shall be fixed by the exporting Contracting Party and communicated to the other Contracting Parties.
2. When the amounts exceed the corresponding amounts fixed by the importing Contracting Party, the latter shall accept them if the products are invoiced in the currency of the exporting Contracting Party. When the products are invoiced in the currency of another Contracting Party, the importing Contracting Party shall recognise the amount notified by the Contracting Party concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that national currency of the amounts expressed in units of account as at the first working day in October 1998.
4. The amounts expressed in units of account and their equivalents in the national currencies of the EFTA States and the West Bank and Gaza Strip shall be reviewed by the Joint Committee at the request of any of the Contracting Parties. When carrying out this review, the Joint Committee shall ensure that there will be no decrease in the amounts to be used in any national currency and shall furthermore consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in units of account.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE CO-OPERATION

Article 31

Mutual assistance

1. The customs authorities of the EFTA States and of the West Bank and Gaza Strip shall provide each other, through the EFTA Secretariat, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Protocol, the EFTA States and the Palestinian Authority shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 32

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing Contracting Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing Contracting Party shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting Contracting Party giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting Contracting Party. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the importing Contracting Party decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in an EFTA State or the West Bank and Gaza Strip and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 33

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing Contracting Party shall be under the legislation of the said Contracting Party.

Article 34

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining preferential treatment for products.

Article 35

Free zones

1. The EFTA States and the West Bank and Gaza Strip shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By means of an exemption to the provisions contained in paragraph 1, when products originating in an EFTA State or the West Bank and Gaza Strip are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new EUR.1 certificate at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII
FINAL PROVISIONS

Article 36

Annexes

The Annexes to this Protocol shall form an integral part thereof.

Article 37

Goods in transit and storage

Goods which conform to the provisions of Title II and which on the date of entry into force of this Agreement are either being transported or are being held in an EFTA State or in the West Bank and Gaza Strip in temporary storage, in bonded warehouses or in free zones, may be accepted as originating products subject to the submission, within four months from that date, to the customs authorities of the importing Contracting Party of a proof of origin, drawn up retrospectively, and of any documents that provide supporting evidence of the conditions of transport.

Article 38

Sub-Committee on customs and origin matters

A Sub-Committee on customs and origin matters shall be set up under the Joint Committee in accordance with Article 28 (5) of this Agreement to assist it in carrying out its duties and to ensure a continuous information and consultation process between experts.

It shall be composed of experts from the EFTA States and the West Bank and Gaza Strip responsible for questions related to customs and origin matters.

Article 39

Non-preferential treatment

For the purpose of implementing Article 3 of this Protocol, any product originating in an EFTA State or the West Bank and Gaza Strip shall, on exportation to another Contracting Party, be treated as a non-originating product during the period or periods in which the last-mentioned Contracting Party applies the rate of duty applicable to third countries or any corresponding safeguard measure to such products in accordance with this Agreement.

ANNEX I TO PROTOCOL B

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of the Protocol.

Note 2:

- 2.1 The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2 Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3 Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.
- 2.4 Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

- 3.1 The provisions of Article 6 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Contracting Party.

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No ex 7224.

If this forging has been forged in the Contracting Party concerned from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the Contracting Party concerned. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2 The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Thus if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.
- 3.3 Without prejudice to Note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No ..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.
- 3.4 When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading No 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

- 3.5 Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular material specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth - even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is the fibre stage.

3.6 Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

4.1 The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

4.2 The term "natural fibres" includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

4.3 The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4.4 The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

5.1 Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

5.2 However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,

- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
- products of heading No 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film ,
- other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 per cent of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

- 5.3 In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 per cent in respect of this yarn.
- 5.4 In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two films of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

- 6.1 In the case of those textile products which are marked in the list by a footnote referring to this note, textile materials, with the exception of linings and interlinings, which do not satisfy the rule set out in the list in column 3 for the made-up product concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex-works price of the product.
- 6.2 Without prejudice to Note 6.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that for a particular textile item, such as trousers, yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners even though slide-fasteners normally contain textiles.

- 6.3 Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7

- 7.1 For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerization;
- (h) alkylation;
- (i) isomerization.

- 7.2 For the purposes of heading Nos 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;

- (g) polymerization;
 - (h) alkylation;
 - (ij) isomerization;
 - (k) in respect of heavy oils falling within heading No ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);
 - (l) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;
 - (m) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250°C with the use of a catalyst, other than to effect desulphurization, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorization) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (n) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;
 - (o) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.
- 7.3 For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

Annex II

List of working or processing required to be carried out
on non-originating materials in order that the product
manufactured can obtain originating status

The products mentioned in the list may not all be covered by the Agreement. It is therefore
necessary to consult the other parts of the Agreement.

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
Chapter 01	Live animals	All the animals of Chapter 1 used must be wholly obtained	
Chapter 02 Ex 0208	Meat and edible meat offal; except for: Other meat and edible meat offal, fresh, chilled or frozen, of whale	Manufacture in which all the materials of Chapters 1 and 2 used must be wholly obtained Manufacture in which all the materials used are classified within a heading other than that of the product	
Chapter 03	Fish and crustaceans, molluscs and other aquatic invertebrates	Manufacture in which all the materials of Chapter 3 used must be wholly obtained	
ex Chapter 04 0403	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for: Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa	Manufacture in which all the materials of Chapter 4 used must be wholly obtained Manufacture in which: – all the materials of Chapter 4 used must be wholly obtained; – any fruit juice (except those of pineapple, lime or grapefruit) of heading No 2009 used must already be originating; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
ex Chapter 05 ex 0502	Products of animal origin, not elsewhere specified or included; except for: Prepared pigs', hogs' or boars' bristles and hair	Manufacture in which all the materials of Chapter 5 used must be wholly obtained Cleaning, disinfecting, sorting and straightening of bristles and hair	
Chapter 06	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	Manufacture in which: – all the materials of Chapter 6 used must be wholly obtained; – the value of all the materials used does not exceed 50% of the ex-works price of the product	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
Chapter 07	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used must be wholly obtained	
Chapter 08	Edible fruit and nuts; peel of citrus fruits or melons	Manufacture in which: – all the fruit and nuts used must be wholly obtained; – the value of any materials of Chapter 17 used does not exceed 30% of the value of the ex-works price of the product	
ex Chapter 09 0901 0902 ex 0910	Coffee, tea, maté and spices; except for: Coffee, whether or not roasted or decaffeinated; coffee husks and skins; coffee substitutes containing coffee in any proportion Tea, whether or not flavoured Mixtures of spices	Manufacture in which all the materials of Chapter 9 used must be wholly obtained Manufacture from materials of any heading Manufacture from materials of any heading Manufacture from materials of any heading	
Chapter 10	Cereals	Manufacture in which all the materials of Chapter 10 used must be wholly obtained	
ex Chapter 11 ex 1106	Products of the milling industry; malt; starches; inulin; wheat gluten; except for: Flour, meal and powder of the dried, shelled leguminous vegetables of heading No 0713	Manufacture in which all the cereals, edible vegetables, roots and tubers of heading No 0714 or fruit used must be wholly obtained Drying and milling of leguminous vegetables of heading No 0708	
Chapter 12	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture in which all the materials of Chapter 12 used must be wholly obtained	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
1301 1302	<p>Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams)</p> <p>Vegetable saps and extracts; pectic substances, pectinates and pectates; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products:</p> <ul style="list-style-type: none"> – Mucilages and thickeners, modified, derived from vegetable products – Other 	<p>Manufacture in which the value of any materials of heading No 1301 used may not exceed 50% of the ex-works price of the product</p> <p>Manufacture from non-modified mucilages and thickeners</p> <p>Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product</p>	
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included	Manufacture in which all the materials of Chapter 14 used must be wholly obtained	
ex Chapter 15 1501	<p>Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animals or vegetable waxes; except for:</p> <p>Pig fat (including lard) and poultry fat, other than that of heading No 0209 or 1503:</p> <ul style="list-style-type: none"> – Fats from bones or waste – Other 	<p>Manufacture in which all the materials used are classified within a heading other than that of the product</p> <p>Manufacture from materials of any heading except those of heading No 0203, 0206 or 0207 or bones of heading No 0506</p> <p>Manufacture from meat or edible offal of swine of heading No 0203 or 0206 or of meat and edible offal of poultry of heading No 0207</p>	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
1502	Fats of bovine animals, sheep or goats, other than those of heading No 1503 – Fats from bones or waste – Other	Manufacture from materials of any heading except those of heading No 0201, 0202, 0204 or 0206 or bones of heading No 0506 Manufacture in which all the materials of Chapter 2 used must be wholly obtained	
1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified: – Solid fractions – Other	Manufacture from materials of any heading including other materials of heading No 1504 Manufacture in which all the materials of Chapters 2 and 3 used must be wholly obtained	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
ex 1505	Refined lanolin	Manufacture from crude wool grease of heading No 1505	
1506	<p>Other animal fats and oils and their fractions, whether or not refined, but not chemically modified</p> <ul style="list-style-type: none"> - Solid fractions - Other 	<p>Manufacture from materials of any heading including other materials of heading No 1506</p> <p>Manufacture in which all the materials of Chapter 2 used must be wholly obtained</p>	
1507 to 1515	<p>Vegetable oils and their fractions:</p> <ul style="list-style-type: none"> - Soya, ground nut, palm, copra, palm kernel, babassu, tung and oiticica oil, myrtle wax and Japan wax, fractions of jojoba oil and oils for technical or industrial uses other than the manufacture of foodstuffs for human consumption 	<p>Manufacture in which all the materials used are classified within a heading other than that of the product</p>	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
1516 Ex 1516 1517	<ul style="list-style-type: none"> – Solid fractions, except for that of jojoba oil – Other <p>Animal or vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinized, whether or not refined, but not further prepared; except for:</p> <p>Hydrogenated castor oil, so called "opal wax"</p> <p>Margarine; edible mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this Chapter, other than edible fats or oils or their fractions of heading No 1516</p>	<p>Manufacture from other materials of heading No 1507 to 1515</p> <p>Manufacture in which all the vegetable materials used must be wholly obtained</p> <p>Manufacture in which:</p> <ul style="list-style-type: none"> – all the materials of Chapter 2 used must be wholly obtained; – all the vegetable materials used must be wholly obtained. HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
ex Chapter 17 ex 1701 1702	Sugars and sugar confectionery; except for: Cane or beet sugar and chemically pure sucrose, in solid form, flavoured or coloured Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form; sugar syrups not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel: – Chemically pure maltose and fructose	Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product Manufacture from materials of any heading including other materials of heading No 1702	
ex 1703 1704	– Other sugars in solid form, flavoured or coloured – Other Molasses resulting from the extraction or refining of sugar, flavoured or coloured Sugar confectionery (including white chocolate), not containing cocoa	Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product Manufacture in which all the materials used must already be originating Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product Manufacture in which: – all the materials used are classified within a heading other than that of the product; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
Chapter 18	Cocoa and cocoa preparations	Manufacture in which: <ul style="list-style-type: none"> – all the materials used are classified within a heading other than that of the product; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product 	
1901	Malt extract; food preparations of flour, meal, starch or malt extract, not containing cocoa or containing less than 40% by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included; food preparations of goods of heading No 0401 to 0404, not containing cocoa or containing less than 5% by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included: <ul style="list-style-type: none"> – Malt extract 	Manufacture from cereals of Chapter 10	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
1902	<ul style="list-style-type: none"> - Other <p>Pasta, whether or not cooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagna, gnocchi, ravioli, cannelloni; couscous, whether or not prepared:</p> <ul style="list-style-type: none"> - Containing 20% or less by weight of meat, meat offal, fish, crustaceans or molluscs 	<p>Manufacture in which:</p> <ul style="list-style-type: none"> - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product 	
1903 1904	<ul style="list-style-type: none"> - Containing more than 20% by weight of meat, meat offal, fish, crustaceans or molluscs <p>Tapioca and substitutes therefor prepared from starch, in the form of flakes, grains, pearls, siftings or in similar forms</p> <p>Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes); cereals, other than maize (corn) in grain form, or in the form of flakes or other worked grains (except flour and meal), pre-cooked, or otherwise prepared, not elsewhere specified or included</p>	<p>Manufacture in which:</p> <ul style="list-style-type: none"> - all cereals and derivatives (except durum wheat and its derivatives) used must be wholly obtained; - all the materials of Chapters 2 and 3 used must be wholly obtained <p>Manufacture from materials of any heading except potato starch of heading No 1108</p> <p>Manufacture:</p> <ul style="list-style-type: none"> - from materials not classified within heading No 1806; - in which all the cereals and flour (except durum wheat and its derivatives) used must be wholly obtained; - in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product 	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products	Manufacture from materials of any heading except those of Chapter 11	
ex Chapter 20 ex 2001 ex 2004 and ex 2005 2006 2007 ex 2008	Preparations of vegetables, fruit, nuts or other parts of plants; except for: Yams, sweet potatoes and similar edible parts of plants containing 5% or more by weight of starch, prepared or preserved by vinegar or acetic acid Potatoes in the form of flour, meal or flakes, prepared or preserved otherwise than by vinegar or acetic acid Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (drained, glacé or crystallized) Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut pastes, being cooked preparations, whether or not containing added sugar or other sweetening matter – Nuts, not containing added sugar or spirits – Peanut butter; mixtures based on cereals; palm hearts; maize (corn)	Manufacture in which all the fruit, nuts or vegetables used must be wholly obtained Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product Manufacture in which: – all the materials used are classified within a heading other than that of the product; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product Manufacture in which the value of the originating nuts and oil seeds of heading No 0801, 0802 and 1202 to 1207 used exceeds 60% of the ex-works price of the product Manufacture in which all the materials used are classified within a heading other than that of the product	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
2009	<ul style="list-style-type: none"> - Other except for fruit and nuts cooked otherwise than by steaming or boiling in water, not containing added sugar, frozen <p>Fruit juices and vegetable juices (including grape must), unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter</p>	<p>Manufacture in which:</p> <ul style="list-style-type: none"> - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product <p>Manufacture in which:</p> <ul style="list-style-type: none"> - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product 	
ex Chapter 21	Miscellaneous edible preparations; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
2101 2103	<p>Extracts, essences and concentrates, of coffee, tea, maté, and preparations with a basis of these products or with a basis of coffee, tea or maté; roasted chicory and other coffee substitutes, and extracts, essences and concentrates thereof</p> <p>Sauces and preparations therefor; mixed condiments and mixed seasonings; mustard flour and meal and prepared mustard:</p> <ul style="list-style-type: none"> - Sauces and preparations therefor; mixed condiments and mixed seasonings - Mustard flour and meal and prepared mustard 	<p>Manufacture in which:</p> <ul style="list-style-type: none"> - all the materials used are classified within a heading other than that of the product; - all the chicory used must be wholly obtained <p>Manufacture in which all the materials used are classified within a heading other than that of the product. HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
ex 2104 2106	Soups and broths and preparations therefor Food preparations not elsewhere specified or included	Manufacture from materials of any heading except prepared or preserved vegetables of heading No 2002 to 2005 Manufacture in which: – all the materials used are classified within a heading other than that of the product; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
ex Chapter 22	Beverages, spirits and vinegar; except for:	Manufacture in which: – all the materials used are classified within a heading other than that of the product; – all the grapes or any material derived from grapes used must be wholly obtained	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading No 2009	Manufacture in which: <ul style="list-style-type: none"> – all the materials used are classified within a heading other than that of the product; – the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product; – any fruit juice used (except for pineapple, lime and grapefruit juices) must already be originating 	
2207	Undenatured ethyl alcohol of an alcoholic strength by volume of 80 % vol or higher; ethyl alcohol and other spirits, denatured, of any strength	Manufacture from materials not classified within headings No 2207 or 2208	
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80% vol; spirits, liqueurs and other spirituous beverages	Manufacture: <ul style="list-style-type: none"> – from materials not classified within heading No 2207 or 2208; – in which all the grapes or any material derived from grapes used must be wholly obtained or if all the other materials used are already originating, arrack may be used up to a limit of 5% by volume 	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
ex Chapter 23 ex 2301 ex 2303 ex 2306 2309	Residues and waste from the food industries; prepared animal fodder; except for: Whale meal; flours, meals and pellets of fish or of crustaceans, molluscs or other aquatic invertebrates, unfit for human consumption Residues from the manufacture of starch from maize (excluding concentrated steeping liquors), of a protein content, calculated on the dry product, exceeding 40% by weight Oil cake and other solid residues resulting from the extraction of olive oil, containing more than 3% of olive oil Preparations of a kind used in animal feeding	Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture in which all the maize used must be wholly obtained Manufacture in which all the olives used must be wholly obtained Manufacture in which: – all the cereals, sugar or molasses, meat or milk used must already be originating; – all the materials of Chapter 3 used must be wholly obtained	
ex Chapter 24	Tobacco and manufactured tobacco substitutes	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
ex Chapter 25 ex 2504 ex 2515 ex 2516	Salt; sulphur, earths and stone; plastering materials; lime and cement; except for: Natural crystalline graphite, with enriched carbon content, purified and ground Marble, merely cut by sawing or otherwise into blocks or slabs of a rectangular (including square) shape, of a thickness not exceeding 25 cm Granite, porphyry, basalt, sandstone and other monumental and building stone, merely cut by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape, of a thickness not exceeding 25 cm	Manufacture in which all the materials used are classified within a heading other than that of the product Enriching of the carbon content, purifying and grinding of crude crystalline graphite Cutting, by sawing or otherwise, of marble (even if already sawn) of a thickness exceeding 25 cm Cutting, by sawing or otherwise, of stone (even if already sawn) of a thickness exceeding 25 cm	
ex 2518 ex 2519 ex 2520 ex 2524 ex 2525 ex 2530	Calcined dolomite Crushed natural magnesium carbonate (magnesite), in hermetically sealed containers, and magnesium oxide, whether or not pure, other than fused magnesia or dead-burned (sintered) magnesia Plasters specially prepared for dentistry Natural asbestos fibres Mica powder Earth colours, calcined or powdered	Calcination of dolomite not calcined Manufacture in which all the materials used are classified within a heading other than that of the product. However, natural magnesium carbonate (magnesite) may be used Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product Manufacture from asbestos concentrate Grinding of mica or mica waste Calcination or grinding of earth colours	

HS heading No (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
Chapter 26	Ores, slag and ash	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex Chapter 27 ex 2707 ex 2709	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes; except for: Oils in which the weight of the aromatic constituents exceeds that of the non-aromatic constituents, being oils similar to mineral oils obtained by distillation of high temperature coal tar, of which more than 65% by volume distils at a temperature of up to 250°C (including mixtures of petroleum spirit and benzole), for use as power or heating fuels Crude oils obtained from bituminous minerals	Manufacture in which all the materials used are classified within a heading other than that of the product Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials classified within the same heading may be used provided their value does not exceed 50% of the ex-works price of the product Destructive distillation of bituminous materials
